DOUBLE COSTS

In every division of construction and operation in the light and power industry costs have doubled in the past 16 years. Taxes have more than doubled in relation to revenues received.

These increased costs have not been passed on to the consumer. Because of a steady improvement in the art of generating and distributing electricity, the cost to him has been reduced.

In the lighting of his home, for example, he now uses lamps having a lighting efficiency 65 per cent greater than the lamps of 1914. The prices of these lamps have been reduced materially under pre-war prices.

In varying degree this is also true of other household appliances. If all these things are taken into consideration and added to the reduction in the cost of electric current itself, it may be said that the 1930 electric dollar is worth about four times the 1914 electric dollar.

COMMUNITY SERVICE IN CHAUTAUQUA TENT

The Chautauqua tent was crowded on Sunday evening, the occasion being a service in which the congregations of three Vulcan churches united in divine worship.

Mr. Pete McAskie acted as chairman and the local minister taking part were: Rev. J. N. Brunton, United Church; Rev. Roy Isaacson, Church of Christ; and Rev. H. Phipps Williams, Church of England. Rev. Phillips of Lethbridge was also present and gave an eloquent and interesting address.

Service was opened with a voluntary by the band which was rendered in first class style. The local musicians also accompanied the singing of "Sun of My Soul" "Abide With Me" and "Lead Kindly Light."

Miss Roebuck acceptably rendered a solo; a quartette by Messrs. Conn, Weale, Ottewell and Roebuck was much appreciated as was also a duet by Mrs. White and Miss Hartwig. Miss Mabel McPherson was the efficient accompanist.

The offering will be donated to the Canadian Bible Society.

LOMOND NEWS

(Too Late for Last Week)

The Agricultural Society are real busy now preparing for their annual fair which is always a big event. Don't forget the dates, July 31 and August 1st.

C. R. Adams, Ed. Root and Wm. Armstrong were at Lethbridge attending lodge last week.

Mr. D. A. Allred is back in town again for a few days.

Mrs. C. F. Koch and family are back from the Hat where the children have been attending school. Mrs. Koch will be staying at home this year the children attending this school.

Mr. P. Ost, Gertrude and Albert motored to the States on Monday to spend a little holiday and bring back Mr. Ost's father.

H. N. Hanna and Mr. J. Stanton's are back from their holidays.

Mr. and Mrs. C. W. Thompson have gone on their holidays, motoring to Seattle.

Mr. and Mrs. Wm. Pierce and family are back from their holidays which they spent in Vancouver.

Mr. Garland spoke to a crowded audience while in Lomond this week.

Mr. Geo. Burne is back from visiting in the Hat.

Miss Elmor Renton of Calgary is visiting her cousin, Miss Charlotte Burne.

Lomond Beauty Parlor opened on Saturday, July 26th in the new barber shop.

Miss K. Kilgannon and Mrs. Robt. Bell are home after their holidays in Vancouver.

Mrs. Geo. Hedges is visiting at Carlsland at the homes of Mrs. O. Olson and Mrs. N. Holden.

Crops north of Calgary are said to be two weeks in advance of other years.

CHAUTAUQUA GOING STRONG

Officially opened by Mr. L. F. Dawson, the Canadian Chautauqua got away to a good start on Friday with the presentation of a delightful little three-act play by the Martin Erwin Players, at the big tent near the rink. It is just thirteen years ago that Chautauqua was introduced into Canada and the organization now extends from coast to coast.

The tent was crowded on Friday and the attendance is being well maintained.

VULCAN CITIZENS' BAND IS IN GREAT DEMAND

The Vulcan band is again in much demand, having among others, an engagement at Brooks Fair to be held on September 1 and 2, the boys are in good shape and are looking forward to the trip. Under the leadership of Mr. Weale we do not hesitate to say that by this time next year, Western Canada will have a hard time to find a better band. All instruments are taken up by beginners and old players, and our next problem will be to find enough for new applicants.

Sunday, August 3, the band will play at a picnic west of Staveland, and in the evening of the same day will provide music for an Elks' service at Barons.

On August 1st the boys will journey to Lomond to provide their usual good music.

It is a testimonial to the bandmen that they are kept so busy these days and that requests for their services are coming in from so many sources.

LOCAL ITEMS

Bill Kaiser motored to Vulcan from Okotoks over the week end.

The grading outfit started work on the new highway on Tuesday.

Mr. A. J. Flood and family are on a vacation at Banff.

Miss Flora Newton is back on the job again after a delightful two weeks' holiday.

Miss Kate Dewie who has been visiting relatives in High River, returned to her home in Vulcan this week.

Miss Christine Eil of Grassy Lake is here visiting with her sister, Mrs. Alvin Jacobson.

Miss Ethel Dingly spent the week end at the home of Mrs. Dave McIntyre.

Carlsland post office was robbed early Monday morning and a cash box containing \$250 was stolen.

Born at Vulcan Municipal Hospital on Wednesday, July 23, to Mr. and Mrs. J. R. Alexander, a son.

Mr. J. B. Munson is attending the Elks' convention at Calgary this week.

The next meeting of the Reid Hill W.I. will be held in the community hall on Thursday, August 7th. Everybody welcome.

While on repair work on the National elevator Monday, one of the repair men fell off a ladder fracturing three ribs.

The National Elevator Co. are enlarging their elevator at Vulcan. Raising the main house and building another annex.

Chauncey Layman has, this week, added a water tank for use in connection with his dray business. Anyone desiring water by tank or smaller quantities, phone 20.

Mrs. A. Ottewell left Vulcan last week for Lethbridge where she will remain with Mr. and Mrs. W. Ottewell. Then she will return to her home in Macleod.

RESULTS SOON SEEN

The very good consequences of establishing a beef grading system in Canada, are apparent not only in Canada but in Britain.

The Imperial Food Journal, a recognized authority says that it is also attracting attention on the British market.

The introduction of beef grading in Canada, whereby the two top grades are marked for the information and protection of the public, is doing much to strengthen the demand for the better qualities of beef. This should tend to promote the raising of better grades of cattle and the finishing of animals before they are sent to market. The same authority forecasts an early return to volume exports of Canadian live cattle to Britain.

NOTES AND COMMENTS

At Redcliffe last week an auction sale of horses brought an average of \$2 a head for 95 horses. At Bassano 80 stray horses were sold averaging \$5 to \$45.

The Winnipeg Electric Company have recently announced a program of work to be done this season to the value of \$300,000 and about 150 men are expected to be at work immediately.

WILL BE PREMIER

Hon. R. B. Bennett

KIRKCALDY NEWS

Mr. and Mrs. A. Roebuck motored to Calgary on Tuesday.

Mr. and Mrs. A. J. Maisey were visitors at the home of Mr. and Mrs. Pete Patterson on Wednesday afternoon.

Mr. W. B. Anderson of Edmonton is visiting with his sister Mrs. Snyder for a few days.

Miss Margaret Roebuck left on Thursday for Claresholm to attend the agricultural college reunion.

The Kirkcaldy Young People's club met at the home of Miss Irene Snyder on Wednesday, July 23rd.

The meeting opened by singing O Canada followed by saluting the flag. Mrs. A. W. Maisey occupied the chair with eight members present. The minutes were read and approved as read. A short business session was then held followed by a social evening.

A dainty lunch was served by the hostess. The next meeting will be held at the home of Miss Winnifred Todd on Wednesday, August 13th.

Mr. and Mrs. Vanderberge and family and Mr. Miles of Glenview, Mr. and Mrs. Schoof and daughter of Claresholm were visitors at the home of Mr. and Mrs. Henry Snyder on Sunday.

Mr. and Mrs. Joseph Meyers and Mr. and Mrs. Percy Meyers returned home on Friday after spending a few days in Red Deer.

Miss Marguerite Todd who has been visiting her uncle in Barons returned home on Friday.

GRANDMOTHERS' DAY AT KIRKCALDY

The Kirkcaldy W. I. met at the community hall on Thursday, July 24th for their social meeting. It was grandmothers' day and those not being grandmothers had the pleasure of entertaining those who were. After a short business session, Mrs. Clements welcomed the grandmothers and each was presented with a small bouquet. Mrs. Hagerman gave a toast to grandmothers which was responded to by Mrs. Fox. Miss Marjorie Lee gave a reading "Grandmother's Old Arm Chair"; contest Nursery Rhymes; reading by Miss Irene Snyder; contest, grandchildren, won by Winnifred Todd, after which we had a real grandma's lunch ginger bread, crullers, tea and coffee. This is a poem sent by one of our members who was not able to be with us.

An Ode to Grandmothers
In Kirkcaldy they say, it's Grandmother's Day,
Here's wishing that I could be there.
But as you all know, I always was slow,
So a line I will send you so rare.
There are eight on this list, a description they'll need.
Some are fair, some are thin, some are stout;
But all are fine looking you'll agree with me there,
And noble good women no doubt.
Now there's Mrs. Fox on the hill you all know.
Her grandchildren are wild about her;
Then comes Mrs. Snyder that lives down beside her,
Who loves her as dearly also.
Mrs. Boose, Mrs. Roebuck, Mrs. Seavers, these three,
Are as clever a bunch as grandmothers can be;
Mrs. Myers has two in the East, they say,
Mrs. Todd's, Mrs. Laing's, cant just stay away.
Take a stroll if you will o'er the province at large,
Not a group like the eight;
Let us wish them long life, void of all strife,
And a pathway that always lies straight.

—Miss Rhinehart.

TELEPHONE STAFF WINS

The Vulcan telephone office has been awarded by the government, first prize for the best kept building in 1930, this includes the garden, out-buildings, etc. In 1928 and 1929 the local office secured second place, and it must be a source of gratification to the staff to now receive the first award.

Congratulations are due to Mr. Green and his associates on the success of their endeavor.

HAILSTORM DAMAGE VULCAN SATURDAY

Vulcan experienced a serious hailstorm on Saturday, commencing about six miles east of town and moving in a north-easterly direction with heavy loss to Tom Clifford, Anton Spanke (on the Finck place), Peter Lundgren (two miles south of Finck place), and extending to Lake McGregor and across the lake into the Armada district.

At the time of writing we cannot give a full list of those who were hit, but the following who were damaged from 10 to 75 per cent. will give a general idea of the direction of the storm:

Jack Warden, W. H. McLean, Gordon McKay, George Green, Walter Gerdtz, George Armstrong, W. M. Peters, C. H. Smith, P. Lundgren, Z. C. Deal, D. J. Ross, J. D. Mannen, Joe Munson, O. V. Hickman, Jas. Dann, B. B. Dann, Art Engen, Lloyd Munson, Jim Douglas, Wm. Myers, Martin Larsen.

ENSIGN NEWS

Mr. and Mrs. E. Harris and family are back in Ensign after spending two weeks vacation at Sylvan Lake.

The August meeting of the Ensign Ladies' Aid will be held at the home of Mrs. J. Williams on Thursday, August 6.

Ms. J. T. Hyde is home after visiting in Okotoks for the past two weeks, and Mr. Hyde is home from his farm near Kirkcaldy.

Mr. and Mrs. H. S. Parker and family were Sunday visitors at the home of Mr. and Mrs. N. J. Pierce of Vulcan.

(Too late for last week)

Mr. and Mrs. Harry Brown are home again after being in Vancouver for two weeks.

Archie McIntyre was clerking in the Ensign store while Mr. Bourque is on his vacation recently.

Mr. and Mrs. W. Mullins and family are back in Ensign after spending their vacation in Edmonton.

Edna Masse has been visiting for the past week at the home of Mr. and Mrs. N. Laffanier at Blackie.

Mr. and Mrs. P. Bourque and family are spending their vacation at Pence River, Edmonton, Sylvan Lake and Banff.

Mr. and Mrs. Eli Hains and family left Saturday morning to motor to Sylvan Lake, where they are going for their vacation.

The Ensign Women's Institute held their annual picnic at High River on Wednesday, July 16. A very good time was enjoyed by all.

Mr. and Mrs. W. D. Bell of Bozeman, Mont., are visiting at the homes of Mr. and Mrs. W. Smith and Mr. and Mrs. Alex Smith. While here a family reunion in the form of a picnic was held at the E. P. Ranch.

CHURCH OF CHRIST

Morning worship 10:30; bible school 11:30; evening service 8:00; Christian Endeavor 7:00. All are invited and urged to come and study and worship with us.

During the absence of Mr. Isaacson who is attending the youth conference at Buffalo Lake, Mr. Deans will be in charge of the prayer meeting at 8 p.m. on Wednesday evening. He will give the message on Lord's Day, evening also. Mrs. Isaacson will give the message on Sunday morning continuing the study of the tabernacle as a type of the church.

Choir practice is at 9 p.m. Wednesday. If you like singing we would like to have you sing with us.

We had seventy-one in bible school last Sunday. Let's make it more next Sunday. Each one bring one.

ADDITIONAL LOCALS

Miss Mary Porter has returned home to Bozeman after visiting with Mr. and Mrs. Billy Herman for two weeks.

Agnes and Cora Finlay from Lethbridge are visiting a few weeks with their aunt and uncle, Mr. and Mrs. Fletcher.

Asked about a report from London that a party of Oxford and Cambridge University students is coming to work in the harvest fields, the minister said that the Alberta government has no knowledge of it and has had nothing to do with arranging for it.

WINS IN BOW RIVER

Mr. E. J. Garland

GARLAND RE-ELECTED BOW RIVER RIDING

The government of Right Hon. W. L. McKenzie King went down to defeat on Monday; Bow River, however, returned the former member, E. J. Garland.

The town of Vulcan gave Graham a majority but the outlying points changed all that.

By the courtesy of the local branch of the Canadian Legion, B.E.S.L., Vulcan electors were enabled to "listen in" to the returns, in the club room.

Many availed themselves of the opportunity, and some were sufficiently interested to remain until 1 a.m.

Many thanks are due to Mr. James Taylor, local dealer, for the loan of a Philco electric receiver which he also installed and operated without charge.

PRINCE TO VISIT

An item in a Vancouver paper of July 21, states, "Social circles are agog at the news published by the London Sketch that His Royal Highness, the Prince of Wales will visit his Alberta ranch in September. The Prince states that his visit will be confined to three weeks in the Canadian west."

UNITED CHURCH NOTES

On Sunday, August 3rd the Rev. J. McKeen Reid of Blackie will conduct services morning and evening in the United Church. Morning service at 11, evening service at 7:30. Mr. Reid is a new comer to our district and you will enjoy the messages he brings Sunday school at 12 noon; Mayview at 2:30.

SCHOOL HOUSE ON FIRE

Saturday afternoon the fire brigade was called to an outbreak at the Vulcan High School building and within five minutes the water was being poured on the flames by the new engine, thus reducing the damage and demonstrating, once more, the efficiency of the brigade and its new equipment.

The cause of the outbreak appears to be spontaneous combustion in the attic, and it is fortunate that Mr. Irvine, the principal, and Mr. Ish, the caretaker, were on the premises at the time and were thus able to give a prompt alarm.

The damage about \$1,000.00 is, of course, covered by insurance.

LOCAL GOLFER

Concerning Clyde's qualifying round in the Calgary Herald's Country District's Golf Tournament, that apter says: E. Clarke, the Vulcan district representative, got into trouble by pulling off the fairway in the first one and had a score of 47, but coming home he got right onto his game a beat old man par twice, and came in with a total of 38. On the tenth and fourteenth he shot a birdie three at it was the unlucky thirteenth that spoiled his card. He polled a seven on a par four hole. On the fourteenth he had a perfect drive and pitched to be green to be within two feet of the cup. Next Clyde played Rogers of Vermilion and was, unfortunately, defeated.

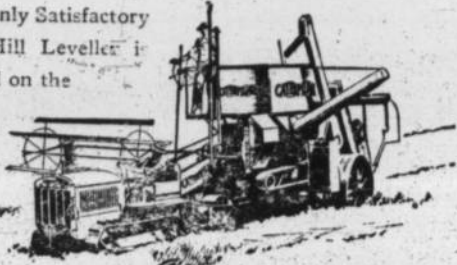

The winner was Lyman Welliver of Red Deer, 20-year-old star, who defeated Dave Grossert, of Hanna, veteran player, in the final at the Calgary Golf and Country club over the week end. Welliver won the Consolation prize last year while Grossert was the 1927 champion.

A new masonic temple is to be erected at Edmonton and the contract has been let to H. W. Ritchie, an Edmonton contractor. The cost of this building is estimated at \$148,000.

COMBINES

Equipped with Medium Hillside Attachment, "CATERPILLAR" COMBINES are as effective on rolling land and hill sides as on the level. The attachment raises or lowers the left main wheel, at the direction of the operator, by means of a power-propelled screw driven by the Combine engine. Installed at the factory or in the field it keeps the separator level so that straw, chaff and grain is evenly distributed over its full width, ensuring maximum efficiency to win the extra bushels that mean your extra profits.

HORSE LAUGHS LAST

The horse, it has been said, showed his sense by being afraid of automobiles in the days when human beings were laughing at them. They did bring a long eclipse upon him, but now, after 20 "veiled years" the full circle of his banishment has been completed and he meets again that general high esteem which has blended the name of a horse with the name of nobleman and a nobleman's attribute, chivalry.

To that field he now returns with a triumphant snort. No one can blame him if he says: "Ha, ha!" It is more distinguished to own a horse in 1930 than it was to have a car in 1910. All of which would be magnificently unimportant if it were not that people in general are becoming acquainted with horses or are recalling the pleasure and health to be had in their good comradeship. The sportsman, the polo player, the owner of great stables or of miles of woodland bridle paths, the racetrack follower, these have kept the horse exalted in their own spheres, but they alone would not have brought about the present equine renaissance. For some reason which probably has to do with the lack of warm blood and friendly eyes in automobiles as well as with the need of that joyful exercise which horses give and automobiles can't, the steed is galloping out from the knightly class and into the busy day of the ordinary working person once more.—Sudbury Star.

TIDE IS TURNING

The Business Week of July issue says, The business tide is beginning to turn very slowly in face of a strong current of peevish pessimism. There will be no noticeable change in the next few weeks. Progress will be slow and spasmodic with sporadic relapses, successively less frequent for some little time yet. But by October there will be evident a return to normal.

This forecast is not based entirely on the sharp rise in our index from the low point of 88.8 per cent of normal last week to 93.6 per cent this week. Other statistical straws suggest that confused currents are setting more uniformly in the direction of recovery.

PEACE RIVER R. R.

The Northern Alberta R. R. is planning on extending construction over 65 miles, penetrating country where settlers have gone in advance of the railways. Over \$4,400,000 will be spent this year on improving and extending railway facilities in the Peace.

HISTORY REPEATS

"More teachers than there are schools."

This is said to be the unusual situation in which the teaching profession finds itself this summer. While it may not be literally true, yet undoubtedly, there are many applicants for the desirable schools, and it is possible that a number of recent normal graduates may have to defer for a time, their dreams of schools of their own, and substantial pay cheques.

It is a situation which doubtless will re-adjust itself, but in the meantime it may turn the attention of the Education Department toward a re-adjustment of the High School curriculum. It has been rather taken for granted that most High School students are entering the teaching profession. Preparation for other lines of occupation may now receive more attention.

The present surplus of teachers, recalls to the memory, the similar though much more acute situation in the East twenty-five or thirty years ago. It was a situation which was responsible for the big rush of teachers to the halcyon West, and incidentally accounts for a large proportion of the mothers of the present generation.

In those days, it was a hectic business for the newly fledged school-ma'am down east to get herself a school. Competition was terrific. Her first school usually carried with it a salary of \$200 a year; \$225 was princely. Board however, was only \$1.50 a week or \$2.50 at the outside. Salary was paid quarterly, or in some schools annually. When hired by the trustees she taught school, sang in the choir, taught S.S., led in Christian Endeavor and otherwise deported herself in a seemly manner. She regarded scrupulously the prejudices of the neighborhood in the matter of card-playing and dancing. Even her beaus and similar attachments must conform to general standards or be discarded. She was on twenty-four hour duty for that \$200. But if she was a hundred per center, she acquired merit and in the course of three or four years might rise to \$325 to \$350.

In the meantime, budding Alberta was advertising for teachers at the fabulous salaries of \$600 to \$720 a year. Thus began the great Western trek of teachers, on money which they had saved from their meagre Eastern salaries.

At that time—25 years ago—Alberta was the dream come true for all teachers.

An Eastern girl with a keen trained eye for a trustee could spot one as the train pulled into any station, step up and say: "Are you looking for a teacher?" It was an even break that he would say "Yes." And she would say: "Well, I'm here," and the deal would be closed. Those were the days.

AMENDED GRAIN ACT

The amended Grain Act will come into force on September 1. This amended act was passed last session. Several grades of wheat have been given new definitions, clauses are inserted to prevent mixing of grades, and the whole field of the acts operations have been reviewed and in many cases revised.

WE EAT MORE MEAT

Canadians are eating more meat and dairy products than formerly.

There is an average consumption of 156 pounds of meat a year for each person, which is an increase of 8 per cent over 1920.

The general trend in ten years has shown a rapid increase in pork consumption and a small increase in beef and a decrease in the demand for mutton and lamb.

The increase in consumption of pork is from 65 pounds to 82 pounds per capita and of beef from 50 pounds to 65 pounds per capita.

The total quantity of meat consumption annually is 20 per cent more than in 1920.

In the same period Canadians have absorbed a 30 per cent increase in the production of milk and an increase of \$11,000,000 in the imports of dairy products.

The average Canadian family consumer in 1929 over nine-tenths of a beef, over two and half hogs, over four fifths of a sheep, seven fowls, three quarters of a turkey, half a goose and half a duck.

LINKING EMPIRE

Major General MacBrien stresses particularly the necessity of Canadian operated air services. He points to Canada's fortunate geographical position in an all world aerial route. It is necessary that we should control the routes of passing over this country, in the same way as we would refuse to permit any other country to operate our railroads.

The much favored route spanning the north Atlantic and Hudson Bay, may some day be the link binding Canada with other aerial routes of the British Empire.

Major MacBrien spoke of plans now being laid for a trial flight across the northern route via Hudson Bay to Europe in 1930. Gasoline for this trip is now being placed along the route, through the courtesy of the Hudson's Bay Co.

A HEAVY PENALTY

Major General J. H. MacBrien, head of the Canadian Aviation League, who has been fined \$600 for alleged failure to report his arrival in U. S. by plane, may have his penalty lifted. The matter has been brought before President Hoover who is investigating.

Major General MacBrien flew from Chicago and from there to St. Paul, after notifying the former city customs officials by wire of his intended arrival. Because Chicago has not been designated as an official port of entry no customs agent recorded his arrival.

After reaching St. Paul General MacBrien said he made another effort to report his entry, but local representatives of an airways company said they could not find a customs agent. The next day, however, customs agents took General MacBrien into the customs department where the fine was imposed and paid.

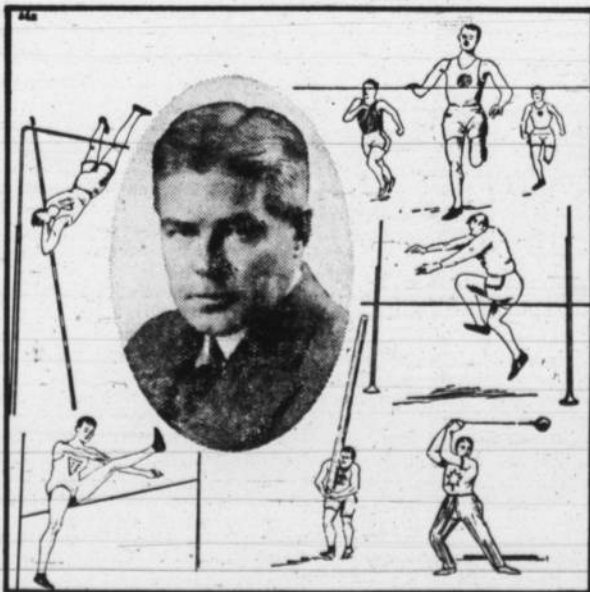

A protest was written by a St. Paul friend to President Hoover, and the customs agent will be investigated.

POOL PAYMENTS

The Central Selling Agency of the Canadian Wheat Pool announced that going into effect June 25th payments on the balance of the 1929 crop not yet delivered by Pool members will be 85 cents a bushel on wheat, 30 cents a bushel on barley, and 40 cents a bushel on rye. This is a reduction of 15 cents a bushel on wheat 10 cents a bushel on barley and 5 cents a bushel on rye. It is stated that the quantity of these grains in Pool farmer's hands to be delivered to the Pools is insignificant.

Lack of a rear vision mirror in his car cost a Cochrane man \$5, and costs the other day.

Empire Games at Hamilton

Hamilton, Ontario, will be the centre next month of the British Empire Games to which athletes from all the Dominions and the Mother Country will flock. E. W. Beatty, chairman and president, Canadian Pacific Railway, is chairman of the national committee of the A. A. U. of Canada for the Games, and promises of support have been received by the committee from Australia, New Zealand, Africa, British Crown

"You are wanted on the phone"

You are prompt to respond to the ring of your phone. The very idea that some one has a personal message for you intrigues your interest.

Has it ever occurred to you that back of every advertisement in this paper there is some one with a personal message for you? More often than not these advertisements were written with you in mind. It is impossible for most merchants and manufacturers to give you a phone call about their goods, their wares, or their services. So they pay us for the privilege of calling these things to your attention in our advertising columns.

Give an advertisement the same attention you give to a phone call. Many of them are just as important to you — and just as interesting. They will help you to economize and keep posted on news of vital interest to you and your pocketbook.

Don't lay this paper aside, without reading the advertisements.

..

THEY ARE PERSONAL CALLS FOR YOU

FAIR NEW ZEALAND

Utopia of This Modern Age by Virtue of Climate, Isolation and Aspiration

New Zealand provides an admirable study of social legislation.

Early in the nineties, its colonists decided that the country was much too young to tolerate pretensions to aristocracy, or too great inequalities of wealth.

For twenty years a Liberal party run by labor, developed its ideas of socialistic well being.

The isolation of this beautiful and fertile island proved an advantage in the process; and in the perfection of community welfare and the reduction between rich and poor, New Zealand has achieved a notable success.

The state runs railways, post office, telegraphs, insurance, loans to farmers and other activities.

Its industry hours are limited, and wages must not fall below a minimum, arbitration is compulsory between capital and labor.

For the aged there are pensions and many measures are enacted to safeguard women and children. Infant mortality is the lowest in the world, 38.74 per 1000.

But private enterprise is encouraged, private property respected. Today New Zealand claims the largest overseas trade of any country in the world. But with an area twice the size of England has to support only one million, five hundred thousand people.

Slowly and surely she is being drawn into the current of international life. Part of her early success, she owed to her ability to escape problems through isolation. She is no longer isolated. Over her looms Asia, but to China, Japan and India she shuts her door.

Her socialism may be based on the brotherhood of man, but this is in reality the brotherhood of Anglo-Saxons. Her heritage is largely Anglo-Saxon and her efforts to keep it so.

CROP REPORT

Rains have been general throughout the province during the past fortnight, and have created a more optimistic outlook particularly in the southern area where hot dry weather has caused damage to dry land crops. On summerfallow and on irrigated land in the south, crops are good; those on spring prepared land will be light.

In the central eastern part of the province fields which escaped serious damage from blowing and cut worms are making excellent progress. In many fields the stand is thin and patchy and reseeded grain is late. There is, however, assurance of ample feed for livestock.

Along the eastern half of the main line of the C.N.R. crops are good. North of this line, west of the C.P.R. from Edmonton to Calgary and in the Peace River district excellent conditions prevail. Plenty of warm weather to hasten maturity is all that is required. Grains in this area will mature about seven days later than last year, while south of Calgary harvest will probably commence slightly in advance of the usual season.

Oats and barley are growing rapidly and many heavy stands are seen. About fifty per cent. of oats are headed and practically all of the barley.

Hail has been reported at a number of points; but does not exceed the average.

Haying is in progress. Alfalfa is making a very heavy second growth. Pastures are in good condition. Sugar-beets are doing well.

Herman Trelle again wins first prize at Regina in the Marquis wheat section.

CANADIAN NATIONAL POLICE CHAMPIONS

Setting a record unequalled elsewhere in one year in winning trophies, the Canadian National No. 1 Revolver Team of Winnipeg, in recent contests, captured the Dominion of Canada Open Championship (Dominion Cartridge Company Cup); Dominion of Canada Rapid Fire Championship (D.C.R.A. Shield); Dominion of Canada Police Championship (Chief Constables Cup); Provincial Police Championship (Dominion Cartridge Company Cup). The members of the team are: H. Whistley (left standing); J. W. Brune (right standing); M. Ross (left sitting); R. G. Pirell (centre sitting); Captain; J. Garriock (right sitting).

Captain Pirell, who holds the highest individual record in every shoot, now has to his laurels the following honors: Canadian Revolver Championship; Canadian Pistol Championship; Rapid Fire Championship (Canadian); United States Pistol Championship (Canadian)

Division); United States Rapid Fire Championship (Canadian Division); Second Place World's Pistol Championship; Smith & Wesson Shield; Dickinson Cup; Webster Cup; Manitoba Pistol Championship; Drewry Cup; Manitoba Revolver Championship; Sir Daniel MacMillan Cup, M.D. 10 Championship; W. A. Murphy Prize; Canadian Revolver Association's Gold Badge, Highest Aggregate; Birks Medal, Highest Individual Record; Third Place United States Aggregate; Highest Aggregate D.C.R.A. Match; Highest Record Score Provincial Police Championships; Highest Record Score Dominion Police Championships; Highest Record Score Dominion Open Championships.

J. W. Brune holds the United States Intermediate Championship, while M. Ross, another member of the Canadian National team, holds the Novice Championship of Canada.

Here and There

Prince Iyesato Tokugawa, president of the Japanese House of Peers, and his son, Hon. Iyegasa Tokugawa, Japanese Minister to Canada, met recently on board Canadian Pacific liner Empress of Russia. The Prince was on his way to London to attend the Inter-Parliamentary Conference and took the opportunity to see his son who had come to Victoria from Ottawa to meet him.

Leaping into shark-infested waters in the China Sea halfway between Hong Kong and Shanghai, Carpenter Tom Ellworthy, of the S.S. Empress of Russia, saved the life of Mrs. Makareff, passenger on the ship who had jumped overboard in a fit of dementia. The woman strongly resisted efforts to rescue her and 4th Engineer Dean went to Ellworthy's assistance, the two men succeeding in bringing her back aboard ship after long and exhausting struggles.

Beating the world's record in passenger traffic operation, Western Canada comes into the limelight this year with the 1252 mile continuous run from Port William to Calgary of the Canadian Pacific locomotive number 2808. A number of locomotives of this class are now being built by the railway, equipped with roller-bearing boxes which will still further facilitate engine operations on long runs.

The season's first climb of Mt. Temple, 11,600-foot peak in the Rockies, was made last week by Dr. Thornton of Philadelphia, well-known writer and Alpinist, and W. Kerr, of Vancouver. Edward Feuz, doyen of Swiss guides in the Rockies, was in charge of the climb which started out from Chateau Lake Louise at three in the morning and reached the summit at ten.

With the opening of the New Pines Hotel at Dicky and of the Algonquin Hotel at St. Andrew-by-the-Sea at the end of June the tourist season in the Maritime Provinces is now in full swing. Reservations at both hotels are very heavy, forecasting a prosperous season.

SHOW 1769 TREATY

Indians from Ontario Lay Protest Before English House of Commons

Three red Indian chiefs, in full native dress, attended a meeting of members of all parties of the house of commons with Fenner Brockway in the chair. The chiefs, who represented the Confederacy of the Six Nations, Ontario, had come to lay a complaint concerning the limitation of their territory and the use of trust funds which are in the hands of the Canadian government, and to ask for the government's help. They produced before the members a treaty signed by Gen. Holdemand, on behalf of George III in 1769, as well as the pipe of peace in silver then presented to the Indians. It was decided to appoint a small committee to inquire into the chief's grievances. When full investigation has been made, a further meeting will be summoned to consider what parliamentary action can be taken.

Canada's production of leather footwear in May, 1930, amounted to 1,524,938 pairs, compared with 1,574,405 pairs in the preceding month, and 1,688,350 pairs in the month of May, 1929. Footwear for women accounted for 46 per cent of the total output of May, 1930 and footwear for men 26 per cent, the remaining 28 per cent, being divided between footwear for boys, girls and children.

THUMBS DOWN

Confining Harvest Labor to Men Already ready within the Province

Hon. George Hoadley is authority for the statement that the government is opposed to any importations of harvest workers from eastern Canada or the United States and it has been agreed with the railways that no excursions will be run this fall, as has been done in previous years.

As a precaution, however, in case the crop turns out better than expected, it has also been agreed with the railways that excursion rates will apply from British Columbia, if required, but this arrangement is to be made use of only for such supplies of labor as the provincial employment service definitely asks for.

"We expect to be able to take care of the crop," says Mr. Hoadley, "with our own men, all the reports indicating that there are already in the province enough people to meet our likely harvest time requirements. Our policy will be to employ first the men now here, and if any more are needed they will be drawn from coast points. There will be no excursion from elsewhere."

With the transfer of the natural resources to Alberta, a large staff of Alberta employees in the fisheries department were no longer employees of the Dominion and were dismissed. This was a mere formality however, as they are likely to be re-engaged by the Province, the actual transfer from dominion to province taking place September 30.

Howard Marler, son of the Canadian Minister to Japan, made a statement, while passing through Winnipeg recently, to the effect that there is a splendid opening for Canadian manufacturers in Japan. Although trade is rapidly developing, he pointed out, there is still a great need for manufacturers to appoint representatives in the Far East.

DRY FARMING

For Excessive Libations, Farmer and Employee Are Put on the Dry List

P. G. Thomas, P.M., High River, presided over a police court sitting in Nanton on July 16 to consider the case of A. Van Kleeck, farmer of the Vulcan district, charged with being intoxicated in a public place. The accused pleaded guilty. This being his second offense he was fined \$200 and costs or three months in jail and interdicted. Fine and costs were paid forthwith.

On a second charge of obstructing a police officer in the execution of his duty, the accused also pleaded guilty, was allowed out on six months' suspended sentence without costs.

James Wheeler who works for Van Kleeck was also charged with being intoxicated. He pleaded guilty, was fined \$20 and costs and also interdicted.

All cases were prosecuted by Corp. Jas. Frewin, A.P.P., Nanton.

ITEMS OF INTEREST

This week's most popular boast, the size of our garden produce—potatoes, carrots, beets, et al.

The Communist party of Canada has organized more than 75,000 unemployed workers into various craft unions.

A Lethbridge lady was bitten by a muskrat in a supervised city swimming lake, so she is claiming about \$275. damages.

There has been a large increase in dairy butter production in the province, due to the low price of cream this summer.

Railroad figures say that 80 per cent. of the people travelling this summer are women and only 20 per cent. are men. This no doubt includes the passengers on top of freight cars.

The contract has been let for the \$1,000,000 bushel elevator at Lethbridge, the successful tenderer being the Nelson River Construction Co. of Winnipeg with the lowest bid of \$62.

While business may have been slow in some lines in town, they say that this summer has seen a record movement over the counter of all liniments, guaranteed to cure aches, bruises, sore backs and strains.

According to the Hamilton Chamber of Commerce, figures being prepared by the Assessment Department will show the city's population to be approximately 151,000. Hamilton's per capita tax levy is about average, compared with other centres, being \$41.12.

Norman M. Paterson, head of the Paterson Grain Company, has announced that construction will start almost immediately on the erection of a grain storage annex of 1,600,000 bushels capacity to the present elevator at West Fort William. The cost will be approximately \$250,000.

Premier Brownlee brightened many lives on Tuesday evening with a nice Scotch story. A Glasgow man died. His brother went down to the ticket office and bought a return ticket to London for the deceased. This was so unusual, as to call for an explanation. Sandy explained that they had six brothers in London, and it was much cheaper to send the corpse to see them, than for the six to come to Glasgow to see the corpse.

Difficulties met by Canadian and United States motorists when taking their cars to Europe have been overcome by facilities afforded by the Canadian Pacific Railway, under which the owner can ship his car as baggage between Canada and European points in either direction. The Company arranges for the necessary customs and registration documents for every country to be visited, driving license, license plates, and membership in the Royal Automobile Club. The car is unloaded within an hour of the ship's arrival and is furnished with oil and a small supply of gasoline and made ready for the road. There is no red-tape and no bond or other financial guarantee required.

Believed to be the largest salmon ever taken by fly on the Medway River, Cape Breton, Archie Juncy, Bangscoote Club guide, took a fish recently that weighed 32 lbs. was 42 inches long and with a girth of 21 inches. The fish has been photographed for reproduction in the Saturday Evening Post.

The railway grade crossing problem is not a problem of the railway's making but essentially a "social problem" and responsibility for its solution rests upon society as a whole. In the opinion of W. P. Borland, Chief of the Bureau of Safety, United States Interstate Commerce Commission,

CANADIAN DONOR

T. B. Macaulay of the Sun Life, Presents Edinburgh University with \$335,000 Endowment

Mr. T. B. Macaulay, president of the Sun Life Assurance Co. of Canada, was the chief figure at an academic function of the University of Edinburgh recently, when he was presented with the honorary degree of L. L. D.

Mr. Macaulay's total contributions to Edinburgh University have been the princely sum of 67,000 pounds. A recent endowment of \$10,000 a year is included in this lavish offering.

Mr. Macaulay's benefactions go to the Department of Research in Animal Genetics, in which study he declares himself to be keenly interested. The department was opened ten years ago to investigate the principles governing the breeding of animals employed in agriculture—sheep, hogs, cows and horses. Mr. Macaulay has endowed a soil research institute at Aberdeen also.

The degree of L. L. D. was conferred with considerable ceremony, many titled individuals being on the platform and "capping" performed by Sir Thomas Holland.

Dr. Macaulay in response stated that though born in Canada, his blood was Scottish. He thanked them for the privilege of becoming identified with the great seat of learning, the University of Edinburgh. He spoke of his special interest in the field of animal genetics.

One endowment of 1100 pounds annually is devoted to the Macaulay Lectureship. The other endowment brings 3000 pounds annually.

This information comes from the North British Agriculturist and has been given little or no prominence in Canadian publications.

While the honor conferred on Dr. Macaulay is great, there is bound to rise in the minds of Canadians a regret that his benefactions should find their mark so far outside his native heath.

Dr. Macaulay, is stated as saying that he is Canadian born.

It is regrettable to other Canadians to realize that the study of animal genetics in Scotland should have had a stronger appeal for him than Canadian efforts in research, or than any other of the struggling aspirations of a new country.

It is possible that Dr. Macaulay's benefactions to various phases of Canadian life have been great. There is no information to hand on this matter. Even so, it is in Canada that his wealth has been made, and the appeal of his native land, one would think would take precedence over all other lands.

There are in our own country so many individuals to be helped, so many philanthropic causes crying out for assistance, so many fields of Canadian research which, given financial easement, would benefit the whole Dominion. One would wish that all the rich men of Canada, who have made their wealth out of Canada would practise in their benefactions the principle of "Canada First and Always."

KORAN AND ANIMALS

The Mohammedans, like Christians are taught to be kind to animals, and like Christians they often fail. The Koran says:

"Verily there are rewards for doing good to dumb animals, and giving them water to drink."

"There is no man who kills a sparrow or anything less without justification, but God would surely ask him."

This week's most popular boast, the size of our garden produce—potatoes, carrots, beets, et al.

VULCAN, ALBERTA

WHEAT STOOKING

An article from an Ontario exchange on the various methods of wheat stooking, recalls to Western minds, the little eastern fields with their orderly rows of stooks, which have not changed with the years. The article says: "No doubt there are many who remember the old fashioned farmers who a few years ago, cradled a wide path round their wheat fields and bound the swath by hand, before starting the binder into the field."

Nowadays, some farmers, particularly new comers from foreign parts, stook in round bunches with cap sheaves. Many stick to the established practice of setting stooks north and south, so the forenoon sun can dry out the east side and the afternoon sun the west side. This is the English rule, apparently, north and south, twelve sheaves to a stook, with out cap sheaves. Whether there is virtue in this method is not known, but it gives good results.

Today there is not so much system in farming, and the short cuts are the most desirable. Time saved is usually a major advantage, but there may even be "best methods in stooking."

Here and There

(564)

Exponents of the Royal and Ancient Game went down to defeat on the Banff Springs Hotel golf course recently when Indian experts played in a nine-hole foursome between two Indian chiefs, Lone Walker and Lone Eagle, and William Thompson, professional on the course, and his daughter, Peggy Dingleish, former Alberta lady golf champion. The Indians shot their arrows from the trees while the golfers played in orthodox fashion. The archers "holed in" a four-inch disc standing on end on the cup. Up to the ninth hole the game was tied, but the Indians won the latter with one stroke.

The Plumbers Opera, opening number presented at Banff Springs Hotel by the Alfred Heather Light Opera Company, that is running a summer season at the well-known Rockies resort, proved an unqualified success, while "Train Tug," the Young Waterman, which followed it, was an even greater hit. The season will run during July and August and a number of 18th century operas with Gilbert and Sullivan and Canadian works will be given.

Sunday, July 29, will see nearly a hundred tourists leave Montreal and Toronto on the seventh annual Across Canada tour organized by Dean Sinclair Laird, of Macdonald College, Quebec. They will travel over 5,000 miles in visiting the Pacific Coast, Vancouver Island, Rocky Mountains, Parks, the Prairie Provinces and almost every district of outstanding beauty as well as those of industrial and historical interest in Central and Western Canada.

CANADAS GREAT MEN

Dominion Continues Unimpressed by Great Men and Great Resources

Before we settle down to weather and crops and the simple life, and take our eyes off the large horizon, it may be fitting to hear what the New York Times has to say about our country. The remarks were prompted primarily by a review of Leslie Roberts' book "These be Your Gods," which treats of the foremost Canadian figures in contemporary times. The Times says: "No country of equal commercial importance with the Canada of today is anything like as unconscious of her own greatness. On the completion of the Welland canal which vies with the Panama as an engineering triumph, the American Minister at Ottawa, remarked on national apathy to this achievement. Canadians have been called a 'debt-paying' people implying a sober steadiness that can accomplish wonders. They are launching and conducting great enterprises while remaining unaware of anything unusual. Happily prosperous and busy opening mines and exporting wheat, they are not greatly impressed by mere size, individual wealth nor high position. Honest and able men may be liked and respected but the worshipful public is wanting. An estimate of public men as viewed by Leslie Roberts places 'the shy Dr. Banting, discoverer of insulin' as being as near to a hero as any other Canadian character."

E. W. Beatty, president of the C.P.R. holds the world's biggest job, but few know or care.

Sir Henry Thornton, a great hulk of a man who likes to work in his shirt-sleeves, in face of all sorts of propaganda, took hold of five competing bankrupt railroads and made the Canadian National "the nation's asset."

R. B. Bennett, a bachelor, a millionaire lawyer and 'deeply religious' is appraised as a diplomat with a flair for a well turned platitude.

MacKenzie King, also a bachelor, is leader of his party, because he "knows how to make decisions" and in ten years "has twice or thrice turned sure defeat to victory by masterly strategy."

Dunning of the Budget, has lived a "success" epic, having come to Saskatchewan as an immigrant at 17.

Sir Henry Holt is described as "the arch croopier of the last half century."

Parliament has seen no magnetic picturesque figure to rouse such love or curiosity as Laurier.

"Did you hear that McGregor fell into the water while he was fishing and was drowned?"

"Are ye sure he's dead?"

"Oh, he's dead right enough. When they got him out they went through his pockets and he didn't move."

THE GIANT AND THE DWARF

Overshadowed by the tone of steel making up the monster that has succeeded it, "Curly," as the engine is still affectionately known among veteran railwaymen, stands alongside a modern Canadian Pacific locomotive and measures only as long as the latter's cab and tender. Nevertheless, "Curly," tiny, lofty-funnelled wood-burner of pioneer days, can claim a record seldom approached anywhere in the world for long life, usefulness and endurance. "Curly" was brought to British Columbia in 1871 and W. H. (Bill) Evans (inset), engineer of the first Canadian Pacific passenger train to reach Port Moody in 1883, says it was built in a San Francisco machine shop and later aided Count de Lessups in the Panama Canal region, not to mention construction work in Peru. Sixty years of arduous work left their mark on "Curly," but now the engine after a thorough refitting at the Canadian Pacific Vancouver shops, is to be exhibited at the Vancouver Exhibition in August, as a museum piece of the early days. Bill Evans was called out of retirement for purposes of this picture and gladly donned the old overalls again to show himself once more in harness alongside "Curly."

MILO, ALBERTA**District Manager Wanted**

A Canadian Life Insurance Company, established 56 years having low rates and paying good profits, desires to get in touch with a man in the district of Vulcan who is well and favorably known in his community, who has an extensive acquaintance, and who would be interested in building up the business of this Company in his territory on a basis which, with the liberal contract we are prepared to offer, would return to him a very good income, increasing from year to year.

We shall be pleased to receive an inquiry (which will be treated in strict confidence) from a sincere man who is a hard worker, but who need not necessarily be experienced in the life insurance business. With such a man we are prepared to deal on a liberal basis.

Apply:—
